The music continues beyond the stage.

Born in the Sierra de Gredos, Spain, Club Gre2Jazz brings together a love of jazz, the pleasure of discovery and the people who make live music happen.

Jazz Live Canada is the English-language Canadian edition of Club Gre2Jazz.

A concrete starting point.

01 What Gre2Jazz brings

A venue profile and program information within the regional listings, with links to the official ticket seller. Any specific editorial or promotional action is agreed separately.

02 What the venue brings

An up-to-date program, a contact person, official ticket links and images that you have permission to share. We agree how to keep the information current.

03 How a collaboration starts

Send your venue and program details. We review the fit, agree which information and links to include, and define the first action and how to assess it.

04 How commercial terms work

This enquiry does not create a membership or charge. Any paid service requires an agreed scope and price. Where a ticketing partner offers an affiliate agreement, commissions depend on that agreement and confirmed eligible sales.

Sending an enquiry does not commit you to a fee or to membership.

Rooted in Gredos. Open to new connections.

The regional Jazz Live editions offer a local starting point for discovering music. Together, they form part of a shared cultural project. Our aim is to develop relationships with venues and audiences, one collaboration at a time.

The venue network is being developed. A venue appearing in the listings does not, on its own, indicate a partnership with the Club.
